DETAILED ACTION

Election/Restrictions

Based upon further review of the amended claims/RCE the examiner has identified distinctions between the currently claimed inventions and thus a restriction has been provided.

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 21-34 are drawn to a system/method for automatic collection and conditioning of closed-captioned text, classified in 348/468.
 - II. Claims 35-36 are drawn to an automatically electronically deliverable database classified in 707/1, 102; 715/968 and class 725.
 - III. Claims 37-40 are drawn to the automatic targeting of a prospective customer and the use of a database for storing/comparing classified in class 707, 715 and 725.
2. Inventions I, II II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as the automatic collection and conditioning of closed-captioned text, invention II has separate utility such as the delivery of an electronic database, and invention III has separate utility such as the targeting of a prospective customer. See MPEP §.806.05(d).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 2622

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.43).
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian Yenke whose telephone number is (571)272-7359. The examiner work schedule is Monday-Thursday, 0730-1830 hrs.
